² Instituto Superior Tecnico, Av. Rovisco Pais 1049-001 Lisboa, Portugal, author.two@ist.utl.pt

Abstract - These instructions give basic guidelines for preparing manuscripts to be published in the symposium proceedings.

Keywords - Include a maximum of six keywords.

I. INTRODUCTION

This document was created using the \LaTeX style file `pimrc.sty` which can be downloaded from the symposium WEB page and the class file `IEEEtran.cls` (V1.5) which is available at the IEEE web site. It is based mostly on the IEEE recommendations for similar publications. All the authors should use it.

II. MANUSCRIPTS

A. General format

Paper size is A4 (21.0×29.7 cm). Set left and right margins to 1.5 cm. Top and bottom margins must be 2.5 and 4.0 cm, respectively. Text must be formatted in two columns of 8.6 cm width and 0.8 cm spacing between them.

Times New Roman or Times Roman fonts should be used. The body of the text must be typed in 10pts, single space.

Papers should be no longer than five pages. However papers with 6 and up to 8 pages are allowed subject to an over-length page fee of 150 Euro per page.

B. Title

The title (12pt, bold, all caps) must be page-centered, taking the width of the two columns. Author's names (10pt) and full addresses (10pt) should follow on separate lines.

C. Headings

Headings or titles of major parts of the text, for instance II. MANUSCRIPTS, and subsection titles (e.g. *C. Headings*) should be distinct and stand out from the text itself. Capitals for section titles and italic for subsection should be used.

III. HELPFUL HINTS

A. Figures and tables

Figures and tables should be placed as close as possible to their first mention in the text.

Table 1

Example of a table and its caption.

	Left	Right	Top	Bottom
Margins	1.5 cm	1.5 cm	2.5 cm	4.0 cm

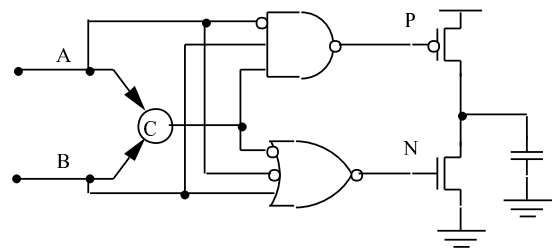

Fig. 1. Example of a figure and its caption.

Photographs, figures and tables must be placed in their proper location within the text.

All figures and tables must have separate sequential numbering, above tables and underneath figures, as shown in Table 1 and Fig. 1 above.

B. Equation numbering

Each equation should be on a separate line. They should have a right justified sequence number (1).

C. References

All bibliographic references must appear at the end of the paper, in a separate section entitled "REFERENCES". The adequate format for various kinds of publications is exemplified at the end of this text. Citations in the paper are indicated by reference numbers within brackets [1].

D. Page numbering

Do not insert page numbers.

E. Footnotes

Do not use footnotes

F. Symbols and acronyms

Use of the symbols and unit of the International System (SI) is recommended. All acronyms should be defined at the time of their first occurrence.

IV. PAPER SUBMISSION

The papers must be submitted in electronic format (PDF) only, using the on-line submission interface available at www.pimrc2002.org. See submission guidelines at this site for details.

ACKNOWLEDGEMENTS

A brief acknowledgement section may be included here.
